PRICE QUOTATION / PROPOSAL AND COMPLIANCE FORM

Engagement of Environmental Services to Transport and Treat Hazardous and Toxic Waste from Energy Supply Base (ESB).

SCOPE OF WORK AND ACTIVITIES

PROJECT: Engagement of Environmental Services to Transport and Treat Hazardous and Toxic Waste from Energy Supply Base (ESB).

JUSTIFICATION: Hauling and treatment of hazardous and toxic waste generated inside premises to ensure proper management of inside PNOC – ESB of which will be reported and included in the Quarterly Self- Monitoring Reports for Submission to DENR-EMB.

SCOPE OF WORK:

1. The contractor shall supply and deliver labor, tools, equipment and technical supervision necessary to completely execute the above project.
2. The contractor shall provide hauling equipment, tools and trained manpower, and undertake the hauling, transport and disposal/treatment of hazardous waste from PNOC Energy Supply Base, Mabini, Batangas to DENR – accredited disposal facility.
3. The contractor shall provide a copy of accreditation as hazardous waste transporter and processing facility and shall be responsible for securing other necessary valid permits, certificates, and clearances for the hauling and disposal of residual waste materials, at its own expense, from the proper government offices. A copy of the said permits, certificates, and clearances shall be submitted to PNOC Management prior to implementation of hauling activities.
4. The Contractor agrees to conform with the provisions of all laws, ordinances, rules, and regulations pertaining to the work under the Contract. It shall give all notices required by such laws, ordinances, rules and regulations, pay all fees payable to any public authority or official in respect to the work herein provided.
5. Fuel, lubricant, maintenance and repair costs for the hauling equipment shall be for the Contractor's account.

LABOR REQUIREMENTS

1. Contractor must be a DENR - accredited transporter and processor of hazardous and toxic waste with at least 3 years of experience in providing similar services.

MATERIALS REQUIREMENT

No materials were required.

PROJECT EXECUTION REQUIREMENT

1. The contractor shall supply labor, tools, equipment and technical supervision necessary to execute and complete the project.
2. Inform the ESB management at least 3 days before scheduled date for waste hauling.
3. The Contractor shall provide an accredited hauling truck.
4. Payment shall be on per truckload basis and depending on the amount of waste hauled from the site.
5. The Contractor shall, at its own expense, provide disposal facility outside ESB and shall be responsible for the proper disposal of residual wastes materials in accordance with the current environmental standards, procedures, requirements and regulations of DENR, PNOG and other Philippine regulatory agencies.
6. The Contractor shall provide Certificate of Disposal from the accredited disposal facility. The said certificate is a document to determine that the waste is properly disposed at the according to the rules and by-laws set forth by DENR in disposing and/or processing hazardous wastes.

ADDITIONAL REQUIREMENTS:

General Conditions:

1. The contractor shall commence work on the agreed start date.
2. The contractor is required to coordinate all activities and work relative to the project with ESB representative for proper monitoring and coordination.
3. The cost for all rework due to contractor's negligence shall be borne by the contractor.

4. The Contractor shall be liable for all accident claims and other related claims arising from injuries and other damages to property occasioned by any act or omission of the contractor including any and all expenses which may be incurred by PNOC ESB in its personnel in the defense of any claim, action or suit.
5. The contractor must comply with all standard health and safety requirements to include, among others, the use of personal protective equipment by all workers, proper ID and observe company rules and regulations on safety and security.

DELIVERY TIME/COMPLETION SCHEDULE:

1. PNOC will engage to the third party service provider with the technical expertise in Hauling and proper disposal of hazardous waste with thirty (30) calendar days allotted for processing of permits and related documents from DENR/EMB and one (1) day engagement / hauling within seven (7) calendar days from the issuance of permit from DENR. The schedule will be one hauling a year, depending on the needs of PNOC ESB and as scheduled upon receipt of the purchase order (PO) by the winning bidder.
2. The Contractor shall submit the Certificate of Disposal (COD) to PNOC-ESB within 7 days upon completion the project.

DEFINITION OF SIMILAR PROJECTS:

The project that involves the technical expertise of third party service provider to conduct hauling, transportation and treatment of hazardous wastes as defined by RA 6969 and according to existing rules and regulations set forth by DENR and relevant agencies.

Contractor with accreditation from Department of Environment and Natural Resources (DENR) to conduct hauling, transportation and treatment of hazardous waste, complete with necessary permits and documentary requirements as mandated by DENR.
